SURNAME INDEX TO THE ALBUQUERQUE MORNING JOURNAL FOR 1921 AND 1922

INTRODUCTION

The idea for this index first came about as a result of Ms. Laurel Drew's work at the Denver Public Library Genealogy Division. That library has certain indexes and materials that are invaluable to genealogical researchers. Our new library had a fair amount to offer researchers; however, there was little for those who were researching their local "roots." There were few genealogical publications of regional interest. With the publication of these indexes, that is now beginning to change.

On her return to the Albuquerque Public Library Special Collections Branch, Ms. Drew considered what information would be most useful to those people doing local research. One of the best sources of genealogical information is, of course, the local newspaper, but there is rarely an index to those records. Therefore, she decided to create one. She directed the compilation of the vital statistics for 1925 to 1936, and later 1921 to 1924. These indexes are available in the Special Collections Branch Library, but no extra copies were made for distribution at the time these indexes were printed.. Under the direction of Ms. Drew, the Albuquerque Genealogy Club undertook the project of further development of indexes for the Albuquerque newspapers.

A form was developed to cover the major vital records that normally appear in the newspaper -- births, deaths, marriages, and anniversaries. This would be an index to the principals in the article and would cover only those persons of either New Mexican origin or who participated in one of these events in New Mexico. In other words, a death occurring in another state would be indexed **ONLY** for those persons of New Mexico origin or residence. The marriage of out-of-state residents in New Mexico and which was reported in the Albuquerque newspaper, **WOULD** be indexed here.

The Albuquerque Journal contains a great deal of information about events all over the state of New Mexico. Since it is the largest newspaper in the state this index can be useful for many events that occurred outside Albuquerque. Be alert when searching as often a subject appeared in more than one article on a page. We attempted to show that by using "(x2)" to indicate "two times on that page."

The form developed by the Albuquerque Genealogy Club resulted in a relatively standard format for the indexes since compiled by the Club. The printed indexes for 1921 to 1924 and 1925 to 1936 of course preceded the "standard" format. The original typed versions were still available and in 1997 a start was made on converting these earlier indexes to the standard format. Howard Henry converted the 1923 index by manually entering the data into an electronic database. Subsequently, 1921 and 1922 were converted using a scanner to electronically copy the original indexes into an image file and Optical Character Recognition (OCR) software to convert the image file to an editable file. This file was then edited with word processing software to reformat the electronic copies to the standard format.

This conversion resulted in new indexes for 1921 and 1922 in the standard format that contains 2631 entries for 1921 and 2887 entries for 1922. This conversion was done carefully and checking

was done to detect errors, but the researcher should be aware that the potential for errors exists in spite of the care taken in the conversion process. In addition, the Albuquerque Morning Journal in these years printed news from towns and communities from around the state in a format that was rather difficult to read because of the type size and news organization. This may have caused errors (both omission and commission) by the original compilers of the indexes and these original compilation errors are also in the converted index. A few of these original compilation errors were found during the conversion process and corrected. The researcher must be diligent in searching for the reference data in order to find it on the referenced page. If the referenced event is not found the researcher should try to reconstruct a scenario for the error. For example, an error in the original index might be circumvented by searching on other most likely dates or pages different from the reference. Adjacent dates or pages would be likely candidates.

Conversion errors result from the OCR software not recognizing the correct character. For example the numbers 5 and 8 may have been recognized as the letter S and the number 11 may have been recognized as ll, li, il, or ii. Sometimes commas after the surname were recognized as letter characters. These and other conversion errors hopefully were detected and corrected.

At this time, the Albuquerque/Bernalillo County Library System has the Albuquerque Morning Journal, Albuquerque Journal, and Albuquerque Tribune available on microfilm from approximately 1880 to the present. Some early issues are missing. Photocopies of a particular record may be obtained from these microfilm copies at the Main Albuquerque Public Library or at the library of the Albuquerque Publishing Company. The Special Collections Branch of the Albuquerque Public Library has newspaper microfilm for the territorial years (prior to 1912) only. We are attempting a complete surname index of the various Albuquerque newspapers from 1880 to 1919 and a vital statistics index of the Albuquerque Journal from 1920 to 1940. Commencing with 1950 and to the present time, we are compiling the obituaries found in the Albuquerque Journal. Some of these years may also contain other death articles in addition to the obituaries.

FORMAT

The format of this index is quite simple. Names are listed alphabetically by surname. Indexes are compiled on an annual basis. This means that users will need to check each year, ESPECIALLY if some event occurred towards the latter months of the year. The legend for the reported event is followed by the date and page or pages on which an article appeared. REMEMBER: The date shown is the date reported in the newspaper and not necessarily the date of the indexed event.

LEGEND FOR THIS INDEX

B = Birth

M = Marriage

D = Death

A = Anniversary of marriage

HAPPY SEARCHING
